POINTS

CRITERIA	EXCELLENT	GOOD	FAIR	POOR
Creativity and originality	Unique, imaginative concept that stands out and feels fresh.	Creative idea with some original touches.	Somewhat derivative; lacks originality.	Uninspired or copied design.
Visual appeal	Eye-catching, well-composed, and aesthetically pleasing.	Looks good with minor design inconsistencies.	Appealing but feels unbalanced or visually cluttered.	Visually unappealing or messy.
Concept and meaning	Clear theme or message that resonates or tells a story.	Thematic idea is mostly clear and meaningful.	Theme is weak or ambiguous.	No clear theme, story, or concept.
Design for production	Practical for pin production (size, line thickness, color separation, etc.).	Mostly suitable for production with minor adjustments needed.	Some production issues (e.g. too detailed, poor contrast).	Not feasible to manufacture as a pin.
Use of color	Excellent palette, great contrast, and harmony.	Good color choices, a few areas could be improved.	Acceptable colors, but not very cohesive or appealing	Poor or clashing color choices.
Line work and clarity	Crisp, clean lines; easy to interpret even at small scale.	Mostly clean, minor clarity issues.	Lines are rough or lose detail at pin size.	Messy or unclear lines.
Original execution	Shows effort, skill, and attention to detail in digital or hand-drawn execution.	Good execution with some polish.	Average effort or skill; could use refinement.	Sloppy, rushed, or low-effort execution.
Wow factor	Truly memorable; would make people want to wear or collect it.	Interesting and likable.	Mild impact; doesn't leave much impression.	Forgettable or confusing.
